Subject: Microsoft Settlement

Dear Sirs

AM extremely disappointed with the provisions of the Microsoft settlement as disclosed in the press. I believe the 9 states who have chosen to persue Microsoft on their own have a better settlement in mind for the public. Please adopt their stance on this issue.

Personaly, I believe the break up of "Office" from the "OS" is the only way to assure competition. Otherwise Microsoft will continue to "embrace and extend" other standards so that we will never have a choose except Microsoft's products.

Please re-introduce competition to the computer market place by supporting the 9 states or breaking up Microsoft.

Sincerely,
Kevin Macken
Litchfield Park, Arizona
